

India Cyber Security Dialogue

A UBM Event

27 - 28 June 2019

The St. Regis, Mumbai

SECURING THE DIGITAL ENTERPRISE

Gold Partner

www.indiacybersecuritydialogue.com

WHY THIS CONFERENCE?

Past few years for Indian business have been dominated by digital transformation and emerging technologies such as AI, cloud computing, IoT, etc. At the same time, organizations are still suffering from cyber attacks which are among the most important barriers in the implementation of their digital transformation agendas. Dealing with the cyber threats of modern information age requires intelligence, planning and immediate response at all levels. Join us at the **2nd Annual India Cyber Security Dialogue** scheduled to be held in **Mumbai** on **27 – 28 June** as this is the ideal platform for practitioners to learn about the latest advances and most cutting-edge strategies for ensuring optimal security within their organizations despite the progressive threat landscape. This year sessions and speakers will cover current topics in risk management, information and security and digital security to attract attendees eager to learn and explore new products and solutions.

“THE STATE OF CYBER SECURITY MARKET IN INDIA”

Projected to grow to **\$35 billion** by 2025

Estimated growth of CAGR **19%** from 2018-2023

Expected investment of **\$1.9 billion** on information security

1 million jobs are projected by 2025

Managed Security Service will consist of largest market size of **\$18 billion**

ICT spending in India is projected to total **\$89.2 billion** in 2019

INDUSTRY CASE STUDIES

The best way to learn about cyber security challenges is to hear from industry practitioners who faced the real life scenarios and their strategies to handle those threats. This year's case-studies based program will have selected in-depth explorations of how leading organizations have approached critical security challenges and help you illustrate the reality of the modern cyber threat and the subsequent need for investment in security measures. These success stories will provide the chance to learn from your peers whether you are creating an overall strategy or working to solve a specific tactical security problem.

This year's case studies include:

SECURING CLOUD ASSETS FOR
COMPREHENSIVE VIEW

CONNECTED THREAT DEFENSE
AND RESPONSE STRATEGY

SECURING SENSITIVE DATA
AGAINST LEAKAGES

KEY FEATURES

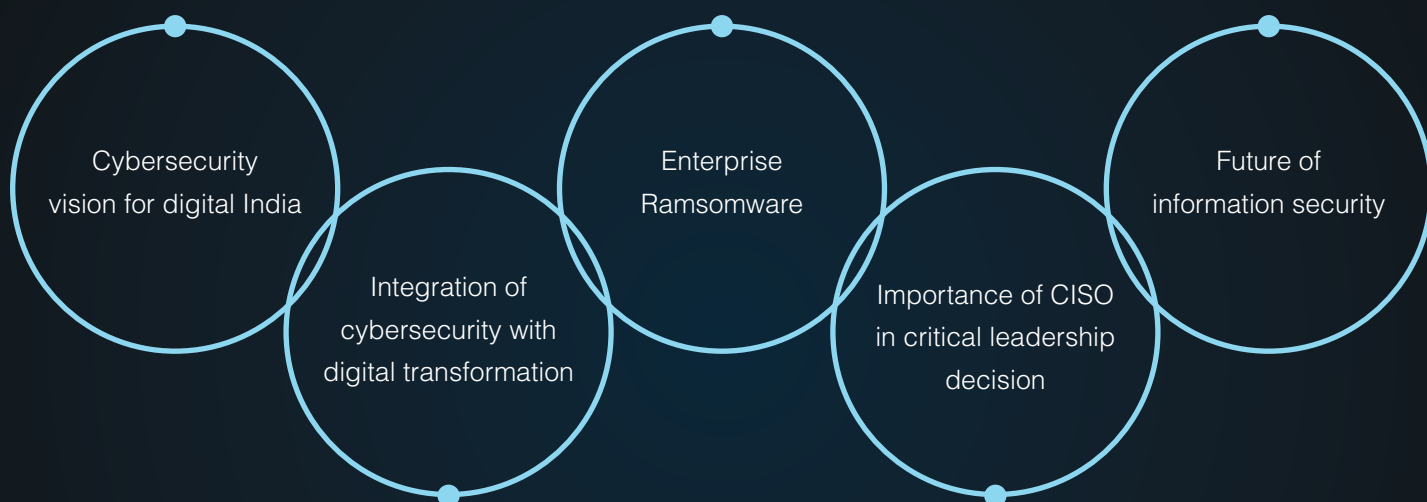

Featuring best case-studies on cyber threats and attacks on businesses or institutions

Sessions on how data protection is evolving to include new technologies to bridge the gap

100+ cyber professional, innovators and practitioners discussing how digital business, IoT, blockchain, automation and other trends are shaping products and opportunities

Exceptional content offer a “how-to” to deploy cyber security strategies

PROGRAMME FOCUS

WHO WILL YOU MEET?

DESIGNATIONS

- CISO
- CIO
- Heads of Innovation
- Heads of IT & OT
- Heads of Cyber Security
- Risk Management
- Digital Transformation
- Heads of IT Audit
- Operational Risk
- Threat management
- IT Compliance

CHIEF GUESTS

DR. VIJAY KUMAR SARASWAT

Niti Aayog
Member

Dr. Vijay Kumar Saraswat retired as Secretary, DRDO, after more than four decades of Government service. As Secretary DRDO Dr. Saraswat played a pivotal role in established Cyber Security Research and Development Centre for developing offensive and defensive technologies for cyber security. As Chairman NTPC R&D Advisory Council similar alternate energy technology development plan has been prepared with focus on clean coal technologies viz. Integrated Gasification and combined cycle system, Advanced ultra-super critical Thermal Power Plant to work on efficiencies better than 40% and highly reduced greenhouse emissions.

Initiated a programme for development of Silicon-Photonics technology by setting up Photonics Valley Corporation at Telengana. Govt. of Telengana initiative in collaboration with Photonics Inc USA. This will be a game changer for the next generation of networks like 5G and super computers. As Chairman of Committee for development of Indian Microprocessor led a team to evolve the configuration of the M-Processor for IOT, Smart Cities and other ICT applications, laid out the strategy for development with DieTy, CDAC, IIT(M), IIT(B) and SCL Chandigarh.

He is a recipient of many awards and most notable among them being Padma Shri (1998), Padma Bhushan (2013). He has been conferred Honorary Doctorate by more than 25 Universities the latest among them being Jamia Humdard (2018).

BRIJESH SINGH I.P.S.

Government of Maharashtra
*Secretary & Director General - Information &
Public Relations & Special Inspector General
of Police – Cyber*

Brijesh Singh is head of Maharashtra Cyber, a unit looking after Cybersecurity of Government of Maharashtra. He is leading the implementation of MH Cyber Project, CERT MH and Predictive Policing units.

He is also implementing unique project of Automated Multi-Modal Biometric Identification System (AMBIS), which is the first initiative in India, where IRIS, Face recognition, Finger and Palm prints will be used for identification of criminals.

Previously, he has implemented huge and successful projects like Crime and Criminal Tracking Network & System (CCTNS) project, other IT schemes for Policing. Presently he is also heading the CCTNS Task force developing big data solutions and analytics on crime data.

Under his leadership, Maharashtra Cyber Digital Crime Unit is established with collaboration of industry stakeholders to tackle online piracy and MCDU is successfully taken down more than 200 pirated websites.

He is also a published Author. Has penned thriller "Quantum Siege" for Penguin books. His recent book "Dangerous Minds of India", is out on the stands now.

EVENT ADVISORS

RAJIV GERELA
Deutsche Bank
Vice President

**VENKATASUBRAMANIAN
RAMAKRISHNAN**
L&T Smart World & Communication
Head – Cybersecurity

DILIP PANJWANI
Larsen & Toubro Infotech Ltd
*Chief Information Security Officer
(CISO) & IT Controller*

EVENT SPEAKERS

VIKAS YADAV
Max Life Insurance
SVP & CISO

SHIVKUMAR PANDEY
BSE
Group CISO

DURGA PRASAD DUBE
Reliance Industries
Global CISO

SATYANANDAN ATYAM
Max Bupa Health Insurance
CISO

DR. LOPA MUDRAA BASUU
Nissan Motor Corporation
*Global Head - Cyber Security Risk
Governance & Compliance*

AMIT MADHAN
Thomas Cook
*President & Group Head- IT
& eBusiness*

ASHTON D'CRUZ
RBS plc
CISO & Head - CC&S Governance

SHIJU RAWTHER
IIFL
EVP - Technology

EVENT SPEAKERS

VIPUL ANAND
Hindware India
SVP and CIO

VENKATA SATISH GUTTULA
Rediff.com
Director - IS

SHERIL JOSE
Emcure Pharmaceuticals
Head - Cyber Security

UNIQUE KUMAR
Max Healthcare
Group CISO

KRANTIKUMAR SHERKHANE
CISO
*Aditya Birla Health Insurance
Company*

RAVINDER PAL SINGH
TATA SIA Airlines Limited
*Chief Information and
Innovation Officer*

KANCHARLA MANMADH
HSBC India
Head of Cyber Security

HEMAL VORA
Adani Enterprises Limited
Head - IS

AMIT GHODEKAR
Motilal Oswal Financial Services
VP – Information Security

AGENDA DAY 1

08.00 **Registration and Refreshments**

08.50 **Welcome note by UBM**

08.55 **Opening Remarks by Conference Chair**

Cyber Security Regulations and Legal Landscape

09.00 **Cyber security vision for digital India**

- National cyber security policies
 - Emerging innovation in cyber security
 - Data protection rule – Trends and challenges
- Brijesh Singh I.P.S – Secretary & Director General - Information & Public Relations & Special Inspector General of Police – Cyber, Government of Maharashtra**

09.30 **Data privacy and protection regulation: The road ahead**

- Current status of data protection framework in India
- It's Impact on private and public sector organization
- Privacy issues in customer engagement, IP and data ownership

10.00 **Cyber security and current regulatory environment**

- Cyber security regulatory landscape insider threats and other important issues
- Industry perspectives on effective practices and helpful tips they have identified

10.30 **Refreshment and networking break**

Cyber Security for Digital Enterprise

11.00 **Managing security risks in today's digital era**

- How to combat complex cyber threats with holistic approach in cyber security planning
- Challenges of digital transformation and why traditional ways are insufficient to protect today's enterprises

Satyanandan Atyam – Chief Risk Officer, Max Bupa Health Insurance

11.30 **Case study: Securing Cloud Assets for comprehensive view of activity and transaction logging**

- Protecting cloud data and ensuring secure access to boost collaboration and productivity among workforce
- Secure cloud data end-to-end—from the cloud to the point of consumption on both managed and unmanaged devices
- Robust technology that provided both data leakage and user behavior analysis from a single solution

Vikas Yadav, SVP & CISO, Max Life Insurance

12.00 **How to integrate cyber security with digital transformation**

- Key trends in digitization along with the cyber security challenges
 - Prioritizing cyber security
 - Active role of CISO in decision making
- Reserved for Partner**

12.40 **Panel Discussion: Cyber security insights: What CISO need to do next**

- Trends in cyber fraud based on actual attacks detected in last few years
- How can digital enterprises protect themselves and their customers
- Importance of cyber security while on the move towards digitization

Moderator:

Amit Madhan - President & Group Head- IT & eBusiness, Thomas Cook

Panelists:

- **Satyanandan Atyam – Chief Risk Officer, Max Bupa Health Insurance**
- **Dr. Lopa Mudraa Basuu – Global Head - Cyber Security Risk Governance & Compliance, Nissan Motor Corporation**
- **Ashton D'Cruz – CAO, CGO, CISO & Head - CC&S Governance, RBS plc**
- **Krantikumar Sherkhane – CISO, Aditya Birla Health Insurance Company**

13.10 **Luncheon**

Artificial Intelligence and IoT Security

14.00 **Best practices to secure your IoT solutions**

- How can organizations consider the end to end security as part of the design process
- What are the challenges faced by organizations with respect to IoT Security
- What are the approaches to solve security challenges in IoT connected devices

Kancharla Manmadh – Head of Cyber Security, HSBC India

14.30 **Cyber & AI: An ever-evolving secure network**

- How can AI create a constantly evolving cyber secure network?
- Will AI mitigate against the weakest part of the business
- Is AI the future of cyber security?

Reserved for Partner

15.00 **Case-Study: Connected threat defense and response strategy**

- Protection strategy to address the security challenges and compliance requirements of a modern data center
- Connected threat defense and response strategy to detect and block threats across all channels
- Solutions that provides multi-layered defense approach to secure endpoints, data centers, and the network

AGENDA DAY 1

15.30 **Refreshment and networking break**

16.00 **Mobile and IoT security**

- What are the security risks of having so many devices connected
- Readiness to tackle IoT connected devices and vital threats
- How we can use strategies from the now mature mobility security market to better secure IoT devices

Reserved for Partner

16.30 **Panel Discussion: A CISO perspective on Artificial Intelligence and IoT**

- Does AI and IoT provide an opportunity to reduce risk
- How should CISO AI and IoT in cyber security program
- Is your board pushing to apply these cutting edge technologies

Panelists:

- Shiju Rawther – Executive Vice President – Technology, IIFL
- Hemal Vora – Head – IS, Adani Enterprises Limited

17.10 **Closing remarks by conference chair**

17.15 **Speed networking**

AGENDA DAY 2

08.00 **Registration and Refreshments**

08.55 **Opening Remarks by Conference Chair**

Cyber Security Strategies and Framework

09.00 **Cyber security: A strategy for successful business engagement**

- Approaches to cyber security strategies that include senior management engagement to protect critical business
- Ensuring that the business is fully engaged in cyber security and adopts a business-driven model

09.30 **Case-Study: Building a framework for cyber security needs**

- Evolving needs and sector specific priorities and challenges
 - Tools and services required in organization's cyber security risk management practices
 - Lessons learned from organizations that leveraging the framework in their organizations
- Shivkumar Pandey – Group CISO, BSE**

10.00 **The Cyberwar: How zero trust can help you**

- The concept of zero trust for network security architecture
- Zero trust based networks adoption by public and private enterprises
- How zero trust is becoming core to enterprise cyber security strategies

Reserved for Partner

10.30 **Refreshment and networking break**

11.00 **Strategies to Secure sensitive data against leakages**

- Ensure stringent and around-the-clock monitoring system to secure the data from internal or external threats
- Advanced analytics and solutions to reduce the problematically high number of false data
- Framework to track data movement and prevention of any unauthorized access of data

11.30 **Panel Discussion: Cyber security guidance for small and medium enterprises**

- Risk-based threat-informed effective practices applicable to SME firms
- Support of their overall business model to increase the security and ensure customers protection

12.10 **The future of cyber security**

- Emerging cybersecurity threats and challenges
- The next generation cyber workforce

Reserved for Partner

12.40 **Fireside chat**

13.00 **Luncheon**

Investment Strategies and Future Opportunities

14.00 **How to optimize cyber security investment**

- Capture organization requirements and translate them into investment decisions
- Parameters to find the right provider
- Optimizing existing investments
- How to demonstrate the metrics to the board

14.30 **Adopting innovation in cyber security**

- Successfully using security to spur innovation and how the security market is innovating to remain a step ahead of the changing threat landscape

- Innovative solutions to combat cyber crime

Reserved for Partner

15.00 **Refreshment and networking break**

15.30 **Panel Discussion: Cyber security – How to respond to growing threats and prepare for future**

- How to prepare for the future cyber security issues
- Future state of cyber security technology, application security and digital defense
- How CSO can protect their sensitive data by securing their applications from hackers

Panelists:

- Venkata Satish Guttula – Director – IS, Rediff.com
- Sheril Jose – Head - Cyber Security, Emcure Pharmaceuticals

16.10 **Closing remarks by conference**

WHO SHOULD SPONSOR?

Network System and
Data Security

Threat Intelligence
Platforms

IT & Cloud
Security

AI & ML
Security

Cyber
Technology

Detection and
Response Solutions

Digital Forensics

Managed Security
Service Providers

Cyber
Insurance

Consulting
Organizations

ERP

Data privacy
compliance

Risk Management
Solutions

Cyber-risk Consulting
and Insurance

Mobile Security

WHY SPONSOR?

BUILD BUSINESS RELATIONS – Dedicated networking sessions to help you maximize interactions with pre-qualified attendees

PRESENT YOUR SOLUTIONS – Join panel discussion or deliver a presentation

DEVELOP YOUR BRAND – Present your brand to industry leaders and build new clients

EXHIBIT – Showcase your products & solutions to the conference delegates

NETWORKING – Meet the key influencers and decision-makers from various industries to generate business and maximize ROI

PRE-SCHEDULED MEETINGS – 1:1 meetings with senior executives to drive sales and solidify partnerships

FACTS FROM LAST YEAR

2 Days
of learning and
networking

20+
thought provoking
sessions

25+
Speakers

150+
Delegates
